- **Description and expertise of the team:**

Artesis Plantijn (AP) University of Applied Sciences is a higher education institution located in Antwerp, Belgium. In its current form AP is a rather young university, resulting from the merger of two universities with a large history: Artesis University College and Plantijn University College. Since 2010 the university is also hosting several programmes of adult education and vocational training. Nowadays AP has 15.000 students and 2000 staff members, and offers 28 bachelor programmes, 8 art programmes and 16 associate degree programmes, clustered into 6 faculties and 2 schools of arts. The purpose of the university is to provide higher education in a pluralistic perspective, focusing on active recognition and appreciation of the various ideological, philosophical and religious ideologies and founded on the principle of independent governance.

Within the Department of Media, Design and IT here is a strong expertise concerning GenAI, both from the perspective of AI-Engineering and how AI can be incorporated in various application domains. This expertise is translated into our IT & Artificial Intelligence Bachelor program as well as several applied research projects (e.g. in the creative and social sectors) and international teaching programs. We provide a team of experienced lecturers with a long track record of designing and implementing course programs for diverse audiences.
