

# *BCO Network WEBseries*

## **Innovation Valleys Digital Strategy**

27 May 2025

Speakers:

**Ramunas Linartas, DG REGIO**

**Caterina Verde, EISMEA**

# European Digital Connectivity Awards 2025

The application form and guide for applicants are available [here](#)

For more information about the categories and procedures, visit the dedicated page on the [DG CONNECT webpage](#).

**Deadline to apply: 2 June,2025**

# Register to 2025 BCO Network In-country workshop

Zagreb, Croatia

11-12 June

To register, please send your contact details to: [sofia.profico@broadbandeurope.eu](mailto:sofia.profico@broadbandeurope.eu)

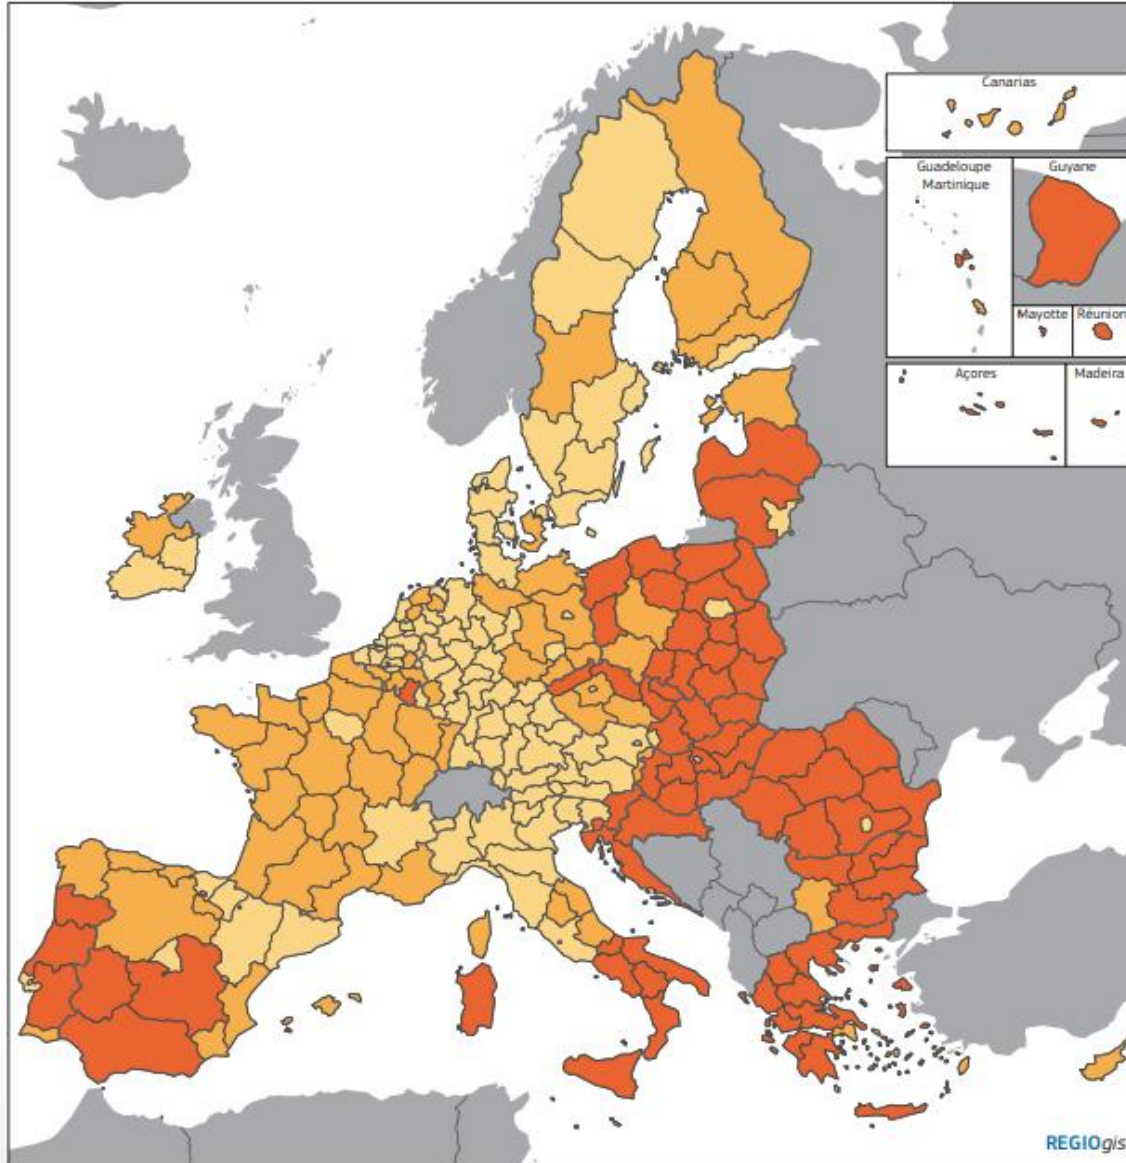

# Interregional Innovation Investments (I3) Instrument

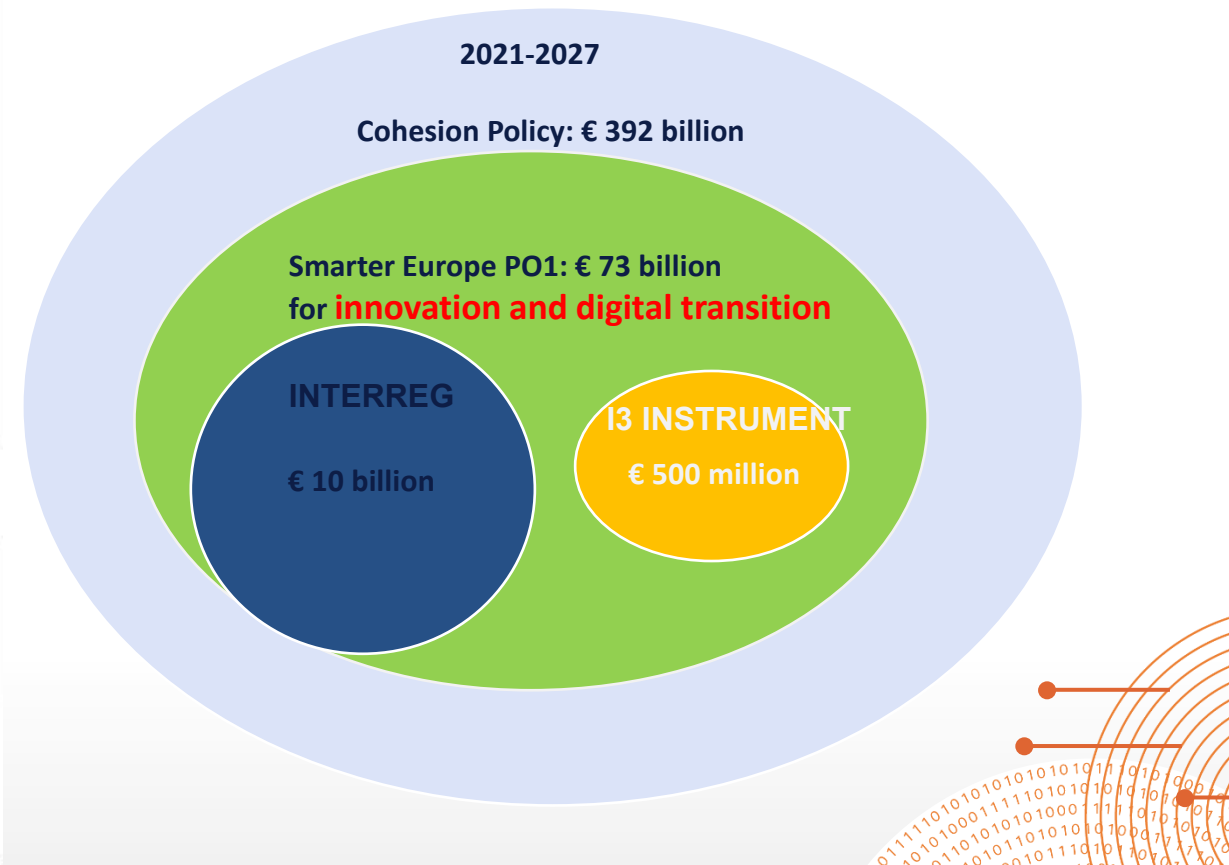

# Cohesion challenge

Category of regions for cohesion policy (ERDF and ESF+), 2021-2027

- Less developed regions (GDP per head (PPS) less than 75% of the EU-27 average)
- Transition regions (GDP per head (PPS) between 75% and 100% of the EU-27 average)
- More developed regions (GDP per head (PPS) above 100% of the EU-27 average)

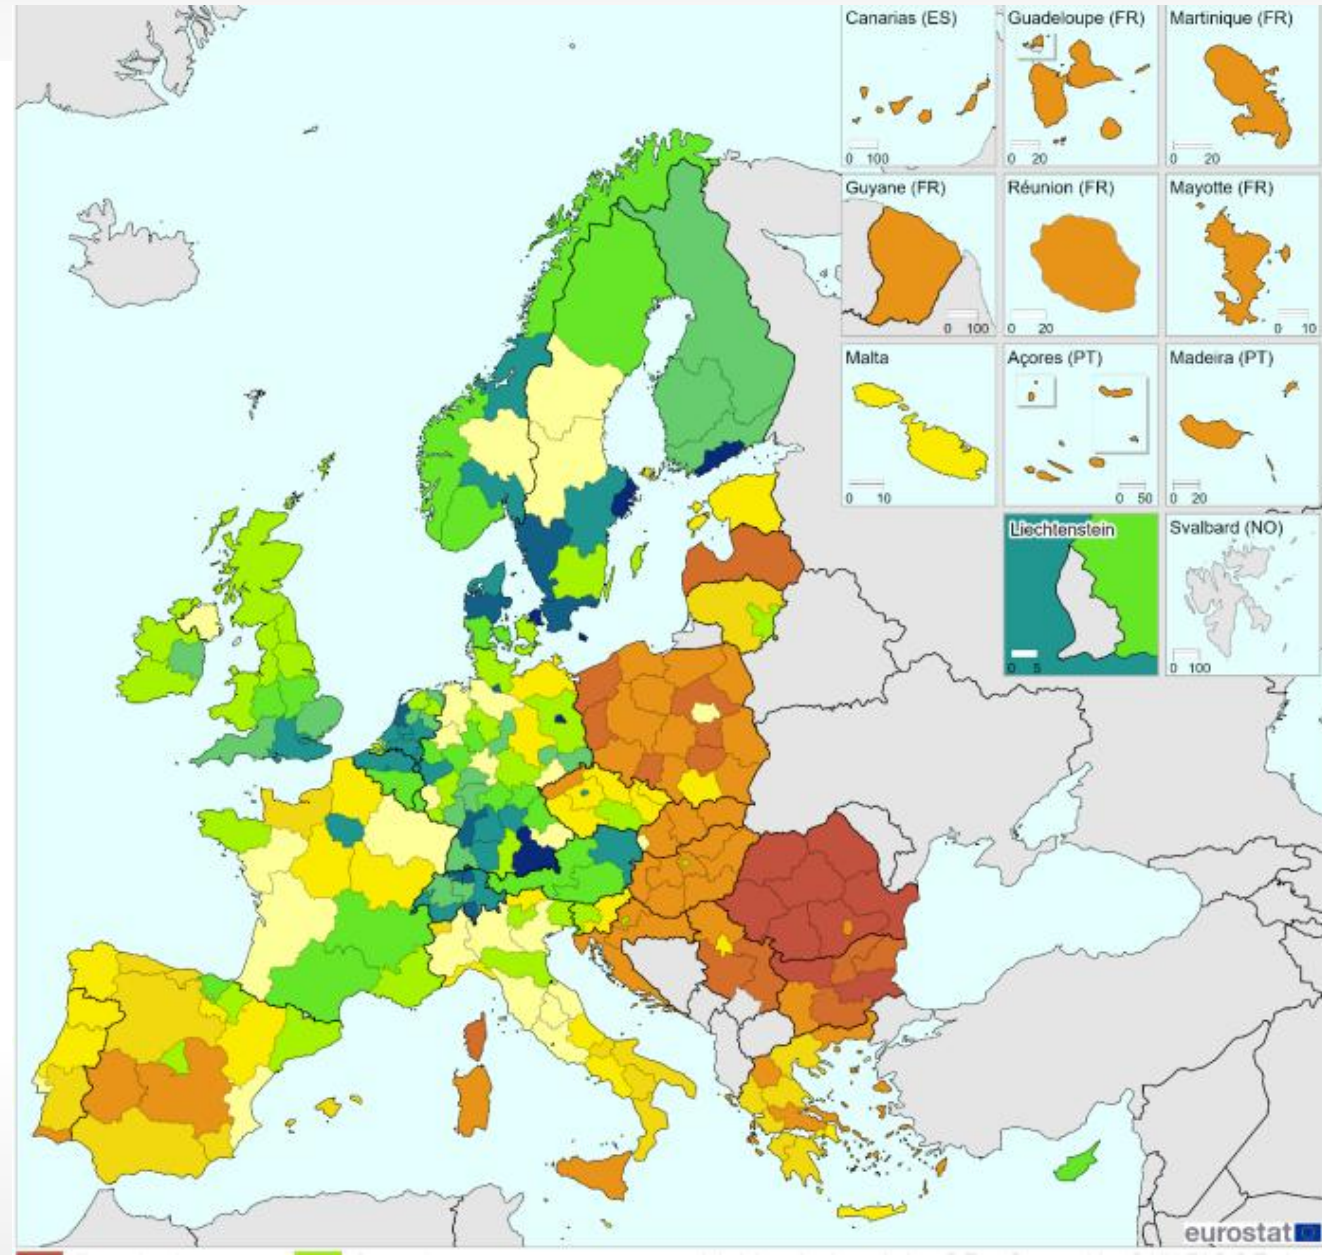

# Regional innovation challenge

*Differences in Research and Innovation capacity:*

- in EU regions across MS
- in EU regions within MS

# Strengthening Innovation in Europe's Regions

**INTERREGIONAL**

**MINIMUM  
3-5  
PARTNERS**

from different  
Member States and  
regional ecosystems

**INNOVATION**

**CLOSE TO MARKET**  
activities (TRL 6-9)

---

**INNOVATION &  
IMPACT-ORIENTED**  
investments

**INVESTMENTS**

**OVER  
€570**  
million available in  
the **2021-2027**  
programming period

---

**UP TO  
€10**  
million per project

---

**70  
%**

of EU contribution for  
all beneficiaries and  
cost categories

**Strand 1**  
Strengthening  
the  
competitiveness  
of existing EU  
value chains

**Strand 2a**  
Development  
of value  
chains in less  
developed  
regions

**Strand 2b**  
Capacity  
building for  
less  
developed  
regions

# I3 Instrument in a nutshell

## WHAT

**Commercialisation and scaling up of innovation projects for the development of European value chains**

## FOR WHOM

**Interregional Q-Helix ecosystems: researchers, businesses, civil society and public administrations involved in smart specialisation strategies established at national or regional levels**

## HOW

Implemented under **direct management**.

**DG REGIO**  
supported  
by (EISMEA)

## HOW MUCH

**ERDF (Art. 13)**  
EUR 500 Million  
(current prices)

Co-funded by  
the European Union

# I3 Instrument's unique features

- ❑ **New instrument** in the EU's toolbox for delivering EU cohesion policy objectives [ERDF Regulation \(Art. 13\)](#);
- ❑ **Complementary** to the mainstream ERDF programmes and HE:
  - ❑ **Unique support for innovation projects:** focus on integrated, close-to-market innovation projects aimed at commercialisation and up-scaling;
  - ❑ **Broad thematic scope:** within wide EU policy priorities but allowing bottom-up approach and projects from various sectors, flexible consortium size, composition, and use of Financial Support to Third Parties (FSTP);
  - ❑ **Creating innovation networks:** I3 is contributing to articulate innovation networks in less-developed regions;
- ❑ **Focus on integrating less developed/innovative regions** in EU value chains, building new value chains, addressing innovation divide (Single Market and competitiveness focus);
- ❑ **What we want to see:** concrete/clear close to market projects (this is not a *learn and connect* phase, rather *test and invest*), clear project partnerships (new or already established), meaningful involvement of LDRs.

# 13 Upstream and downstream dependency

## CAPACITY BUILDING

I3 Instrument's success and impact is contingent on the existence of the many partnerships, networks as well as partners' capacity to engage in joint projects:

- Dedicated capacity building calls;
- I3 Support facility;
- Smart Specialisation Platforms;
- S3 CoP.

CONNECT

LEARN

## INVESTMENT (TRL 6-9)

SCALE-UP

COMMERCIALISE

DEMONSTRATE

Capa

**I3 Strand 1:** support for investments in interregional innovation projects in shared smart specialisation areas

**I3 Strand 2a:** support for investments in interregional innovation projects for the development of value chains in **less developed regions**

# 13 Instrument Overview

## Calls Launched:

**Nov 2021:** Innovation Support – 2 calls: Strands 1&2a

**Dec 2022:** Capacity Building – Strand 2b

**May 2023:** Innovation Support – 2 calls Strands 1&2a

## Latest:

**Nov 2023 – Feb 2024/Nov 2024:** Capacity Building call

**June 2024:** Innovation Support – new calls for Strands 1&2a

## Upcoming Calls:

**May-October 2025:** Innovation Support – new calls for Strands 1&2a (€48.3M)

**October 2025 – March 2026:** last Capacity Building call (€8.5M)

## Achievements:

**53 running projects:** From the 2021-2023 calls.

**€225M:** Funds allocated for innovation investment projects

**€25M:** Funds allocated for interregional innovations capacity-building

**almost 800 single participants** from almost all EU countries (**except Malta and Luxembourg**)

**March/April:** grant agreement preparations with 18-20 new projects (€80M)

**EISMEA I. 01 - EU and place-based Innovation Ecosystems**

The background features a complex design. On the left, there is a circular area filled with a blue circuit board pattern. This circle overlaps with a larger, semi-transparent orange circle. Below the circuit circle, there are several concentric orange circles. To the right of these concentric circles, three horizontal lines extend to the right, each ending in a small blue dot. The overall color palette is dominated by orange and blue.

# I3 instrument and digital Innovation

# Why I3 for Digital Innovation?

- Supports high Technology Readiness Level (TRL) innovations to accelerate regional development

Catalyses joint investments across regional innovation ecosystems

Encourages bottom-up involvement of start-ups, scale-ups, and SMEs

Strengthening cross-border deployment

Builds on smart specialisation strategies and ecosystem Policy learning

- Facilitates market deployment and scaling of digital technologies

- Synergies with Horizon Europe, EIT, EIC, and digital policy tools

# Innovation Valleys A Key Flagship Under the New European Innovation Agenda (NEIA)

1. Reduce the Innovation Divide tackling the regional disparities in innovation performance, ensuring inclusive and balanced innovation growth
2. Build the process based on Smart Specialisation Strategies (S3), drive the innovation into regional development priorities, promoting strategic value chains
3. Strengthen Interconnected Regional Ecosystems, encourage cross-border collaboration, joint investments, shared infrastructures, and talent mobility and in general among the 4 helix stakeholder.
4. Deploy Deep Tech and Digital Solutions, focus on key areas such as AI, cybersecurity, advanced connectivity, and digital health - Align with the Digital Decade goals and green transition priorities
5. Mobilise EU and National Funding Synergies

The background features a complex design. On the left, a circular area contains a detailed blue circuit board pattern with various traces, pads, and a central component-like shape. This circle overlaps with a larger, semi-transparent orange circle. To the right of these circles, the text 'Strand 1 and Strand 2a' is displayed in white. At the bottom, several concentric blue circles are shown, with three horizontal lines extending from them to the right, each ending in a small blue dot.

# Strand 1 and Strand 2a

# Calls targets

◆ Strand 1 – ◆ Strand 2a –

## STRAND1

- **Boost competitiveness of EU value chains**
- **better connection** between regional innovation ecosystems;
- Innovation creation

## STRAND2a

- Foster investment portfolios for **innovation deployment in Less Developed Regions (LDRs)**
- **commercialisation and scaling up** of innovation in European value chains
- innovation diffusion

- Strengthen interregional cooperation around **shared or complementary Smart Specialisation (S3)** areas
- Scale **high TRL digital innovations (TRL 6–9)**
- Build interconnected EU value chains and promote technology diffusion

# Thematic priorities

**DIGITAL TRANSITION**

**GREEN TRANSITION**

**SMART MANUFACTURING**

# Key Dimensions of the Calls

| Dimension            | Strand1   | Strand2a  |
|----------------------|---|---|
| Interregional        | Focus on joint innovation activities across regions                               | <b>Portfolio of sub-projects</b> in LDRs linked to EU value chains                      |
| Innovation           | Pilot, validate, and scale <b>mature technologies (TRL 6-9)</b> -> Post prototype | Support <b>investment-ready innovations</b> for SMEs <b>(TRL 6-9)</b> -> Post prototype |
| Investment           | Tangible & intangible investments; piloting & demonstration                       | Financial & advisory support aligned with <b>business plans</b>                         |
| Smart Specialisation | Based on S3 complementarities   | S3 coordination across thematic/technological areas                                     |

# Specific Requirements – **FOR BOTH**

## Investment Allocation:

- ✓ **70% of Total Eligible Costs** must be allocated to investments in **companies**, with a **focus on SMEs**.

The proposal must detail how this requirement will be met, including the following:

- **SME Consortium Partners**
- **Financial Support to Third Parties (FSTP)**
- **Non-financial support provided to SMEs (advisory support)**

## Regional Allocation:

- ✓ **50% of Total Eligible Costs** must be incurred in Less Developed Regions (LDRs)

## Measures for Active Involvement:

- ✓ Include plans for the replication of results in participating regions and for the broader exploitation.
- ✓ Engage regional authorities to ensure sustainable impact.
- ✓ **Exploitation Plan, outline the post-project phase**

# Support from I3

## FINANCIAL SUPPORT

for **productive investments in companies**  
(financial needs toward commercialisation).

Needs identified in a **business and investment plan**, including a **market analysis**

(Core part of the project)

## ADVISORY SUPPORT

for **company driven demonstration activities**,  
including **access to testing environments, technical/scientific expertise**, *other services responding to the needs of the companies*  
(e.g. certification, standardisation, IPR strategy)

**Financial and advisory targeting the investment needs of the companies involved in the consortium**

***“At least 70% of the total eligible costs must be allocated to investments in companies, with a focus on SMEs”***

# Expected impact

Same for all thematic priorities !  
Non-exhaustive list

|                                      | Strand 1 (enhance competitiveness)   | Strand 2a (new VC in LDRs)   |
|--------------------------------------|--|--|
| Short term at the end of the project | <ul style="list-style-type: none"> <li>• New technologies tested</li> <li>• Innovative solutions deployed</li> <li>• Market uptake of new solutions</li> <li>• Innovative technologies adopted by SMEs</li> <li>• Funding/funding mix</li> <li>• Strengthening innovation diffusion channels</li> </ul>  | <ul style="list-style-type: none"> <li>• <b>Creation of new value chains in LDR</b></li> <li>• <b>Application and deployment of innovative technologies and solutions (new to the region) in LDR;</b></li> <li>• <b>Exploitation of research results;</b></li> <li>• New technologies tested</li> <li>• Innovative solutions deployed</li> <li>• Market uptake of new solutions</li> </ul> |
| Long term                            | <ul style="list-style-type: none"> <li>• <b>Increased innovation capacity across EU regions</b></li> <li>• <b>Increased competitiveness and resilience of EU Value Chains</b></li> <li>• Increased productivity and efficiency</li> <li>• Improved public services</li> <li>• Improved level of digital skills</li> <li>• New market opportunities for EU companies;</li> <li>• EU industry more efficient and sustainable;</li> </ul> | <ul style="list-style-type: none"> <li>• <b>Reduction of the innovation divide between MDRs and LDRs;</b></li> <li>• Increased productivity and efficiency</li> <li>• Improved public services</li> <li>• Improved level of digital skills</li> <li>• Improved EU innovation capacity and competitiveness</li> <li>• New market opportunities for EU companies;</li> </ul>                 |

# Project budget and duration, funding rate **(valid for both)**

Project size

€ 2 – 10 million

Duration

18 – 36 months

Funding rate

70% for all other cost categories

100% for costs of FSTP

**Strand 1 &  
Strand 2a**

**€ 48.3 million  
2025**

# Consortium composition

Applicants:

Q-helix partnerships

on behalf of a

regional / national

ecosystems

| Strand 1  | Strand 2a   |
|---|---|
| <ul style="list-style-type: none"><li>– at least <b>5 independent legal entities</b> established in <b>5 different regions</b> of at least <b>3 eligible countries</b>.</li><li>– at least <b>2 legal entities</b> must come from <b>less developed regions</b></li></ul> | <ul style="list-style-type: none"><li>– at least <b>3 independent legal entities</b> established in <b>3 different regions</b> in at least <b>2 eligible countries</b></li><li>– the consortium shall represent <b>at least 1 more developed region</b> and must have a strong involvement of less developed regions and focus on their needs</li></ul> |

The **consortium coordinator** must be:

- Public body or
- Non for profit
- **entity entrusted by national or regional governments** to develop or implement innovation and investment actions for SMEs (i.e. a cluster organisations, development agencies, or innovation agencies etc.).

*Enable secure, citizen-centric health data exchange using blockchain technology to improve interoperability and trust across regional health systems. (Strand INV2a)*

### **Consortium & Regional Reach**

Multi-region collaboration across EU Member States  
Strong participation of SMEs and health system actors  
Integrates less developed and more developed regions in a unified health innovation value chain

### **Key Features**

Blockchain-based infrastructure for secure, decentralised data sharing  
Enhances patient control over personal health data  
Focuses on digital trust, cybersecurity, and compliance with EU regulations (e.g., GDPR)

### **Innovation Value**

High TRL digital solution (TRL 7–9) deployed across regional health ecosystems  
Supported by Financial Support to Third Parties (FSTP) for SME testing and validation  
Enables replication and scalability in other EU health systems

### **I3 Added Value**

Cross-border innovation deployment via Strand 2a  
Demonstrates how digital trust frameworks can be scaled through public-private collaboration  
Reinforces Innovation Valleys ambitions in digital health sovereignty

# DIGIT-PRE

*Develop AI-based digital tools to support predictive and preventive health interventions for ageing populations. (StrandINV1)*

## Consortium & Regional Reach

Multi-partner collaboration across Belgium, Spain, Greece, and additional EU regions  
Combines clinical stakeholders, tech developers, and public health authorities  
Interconnects regions with complementary Smart Specialisation (S3) profiles in digital health

## Key Features

Creation of an interoperable, secure health data platform  
AI models to identify risk factors early and enable personalised prevention  
Demonstration and validation in regional healthcare ecosystems

## Innovation Value

High TRL innovation moving from testing to operational integration  
Strong SME engagement supported by Financial Support to Third Parties (FSTP)  
Contributes to data-driven, proactive care models across Europe

## I3 Added Value

Funded under Strand 1 – interregional innovation in shared S3 areas  
Facilitates deployment of AI in public health, especially in ageing societies  
A concrete example of the I3 Instrument supporting place-based digital transformation

# KPIs

**Interregional Innovation Dimension:** n° of Regions Involved: NUTS1, NUTS2 regions (LDRs, MDRs, transition, outermost regions). Portfolio-level collaboration from different regions.

**Type of Project Participants :** quadruple helix stakeholders (SMEs, Start-ups, Public Authorities, Academia, RTOs , Industry, Intermediaries - e.g., regional development agencies, cluster organisations - End Users, Associations, etc.)

**SME-Centric Investment and Scaling:** % of total investment allocated to SMEs; jobs created

**Innovation Maturity & Market Readiness:** TRL progression (from TRL 6 → TRL 9); number of tech solutions reaching deployment

**Socio-Economic and Territorial Cohesion:** Number of new regional ecosystems integrated into EU value chains

**Knowledge Valorisation & IPR:** Patents, trademarks, IPR strategies established

**Gender (Persons Reached) :** Number of persons reached: male, female, non-binary.

Cap 2b call

Capacity building\*

# Strand Cap 2b Capacity Building in Less Developed Regions

Strand 2b aims to increase the capacity of regional innovation ecosystems in less developed regions to collaborate in creating or boosting existing EU value chains (main focus on LDRs).

The call aims to improve the capacity of public authorities and innovation intermediaries (e.g. clusters) to support companies in the identification of investment portfolios at an interregional scale (e.g. fostering deep tech solutions).

# Eligible Activities ...

## Proposal key Actions

### Interregional ecosystem

The proposal should build a network of interconnected businesses, organizations, institutions, and other stakeholders that span across multiple regions or geographic areas. These ecosystems involve collaboration, knowledge sharing, and the exchange of resources between different regions.

### Pillar 1: **INTERREGIONAL – INNOVATION** Ecosystem Building and Connection

- creation and/or reinforcement of **\*interregional innovative ecosystems**
- learning from each other on the **S3 priorities** - i.e. retaining and attracting talent
- Support to alliances for regions to focus **on specific innovation topics** and to **find suitable partners** for them

### Pillar 2: Development of **\*Interregional INVESTMENT** Projects

- identification of a **pipeline of business-driven investment projects** (companies' identification) - **matching** investments needs
- increasing investment readiness and capacity **to build interregional investment portfolios**

# and .....

- **Support Actions:**
- **Pillar 3: Mapping & Benchmarking**
  - value chains **mapping** and **identification** of best practices/areas for joint investments
- **Pillar 4: Networking and Staff Exchange Schemes**
  - **connecting** LDRs with other ecosystems (MDRs in particular)
  - **building capacities** to cooperate to understand value chain implementation, also with other EU regions and companies
  - **creating the conditions for joint investments under the other calls Strand1 and 2a**

## Cap 2b: Thematic priorities

**DIGITAL TRANSITION**

**GREEN TRANSITION**

**SMART MANUFACTURING**

# KPIs

**Interregional Dimension:** n° of Regions Involved: NUTS1, NUTS2 regions (LDRs, MDRs, transition, outermost regions)

---

## Policy objectives:

- n° of S3 based roadmaps developed contributing to European Strategic Innovation agendas
- n° of S3 Partnerships (or other relevant interregional working groups) in which regions are actively participating
- Number of policy measures conceived to engage the ecosystems externally

## Socio-Economic Benefits:

- n° of value chain analyses based on mapping and benchmarking activities
- n° of business cases identified in the framework of the given value chain developed
- n° of companies and intermediaries involved in the business cases

**Gender (Persons Reached) :** Number of persons reached: male, female, non-binary (Fixed targets in women's participation)

# Other requirements

**Project budgets** (max grant amount) range between EUR 500,000 – EUR 1,500,000 per project, other amounts, if duly justified. Funding rate 70%

**Duration** Projects should range between 18 and 24 months (extensions are possible)

**Geographic location** eligible countries and S3 participating regions

## CONSORTIUM COMPOSITION

Composed of minimum **2 independent legal entities** representing **2 different regional ecosystems** from **2 different EU Member State**

Representing at least **1 EU “more developed region” (MDRs)**

Include **innovation actors**: quadruple helix stakeholders from less developed regions (LDRs) with an umbrella role (e.g., clusters representing companies, universities, RTOs)

The **coordinator** must be established in the EU in a “less developed region” and be a public body, or private non-profit organisation, or...

## Strand 2a (*new VC in LDRs*) - project example

- Strand 2a -> **SmartVitiNET** - Drone-Assisted Viticulture
- 3 years, 11 partners, 4 countries – GR, PT, FR, CY,
- EUR 1,98 million;
- Solutions for viticulture to be used by vineyard owners and agricultural policy makers
- Innovative technologies accessible to wine-growers
- **Innovation diffusion**

Led by the **Agricultural University of Athens**

Lack of experience in creating competence center

Their first “close-to-market” project related to the ERDF.

Scan the QR code 

# Thank you!

[Caterina.Verde@ec.europa.eu](mailto:Caterina.Verde@ec.europa.eu)

#I3Instrument

# Payment arrangements

**prefinancing**

**70% of total grant amount paid after the start of the project**

**payment of the balance**

**paid at the end of the project (within 90 days after the final report)**

# Use of Financial Support to Third Parties(FSTP) in I3 (valid for both)

I3 projects are mainly implemented by consortium partners according to the project application.

FSTP can enable cascade funding to support SMEs, foster replication, and encourage innovation diffusion.

## Conditions for FSTP Use:

Calls must be **open, widely published**, and **conform to EU standards for transparency**, equal treatment, conflict of interest, and confidentiality.

**Duration:** Calls must remain open for at least 2 months.

**Publication:** Outcomes must be published on the participants' websites, including details on selected projects, award dates, project durations, and recipient names and countries.

**Funding Limit:** Maximum financial support per recipient: EUR 60,000.

**Eligible Recipients:** Direct recipients must be SMEs established in EU

## FSTP Objectives:

Support SMEs capable of **adding value** to the project by completing a specific value chain, testing products, or exploring new technologies.

Proposals must include clear **justification** for FSTP, its management, and **expected results** on innovation ecosystems.

The background features a complex design. On the left, there is a circular area filled with a blue circuit board pattern. This overlaps with a large, light-orange circle. To the right, a larger, solid orange circle is partially visible. At the bottom, several concentric blue circles are shown, with three horizontal lines extending from them to the right, each ending in a small blue dot.

# Award criteria and other information
