PARTNER INFORMATION

Ethiceye is a consultancy and training initiative specialised in responsible artificial intelligence for education and organisations.

We work with educational institutions, universities and organisations to support the adoption of AI through literacy, governance frameworks and critical thinking development.

Our focus is on enabling responsible integration of AI systems through human-centred criteria, aligned with European regulatory frameworks such as the EU AI Act and emerging AI literacy requirements.

▪ **Description of the Legal Entity:**

- Higher Education ☒
- Research Institution ☐
- Public Administration ☒
- Industry / SME ☐
- NGO ☐
- Other: ☐

Please specify:

▪ **Description and expertise of the team:**

The team is led by Raquel López Hernández, founder of Ethiceye, with professional experience in education, digital transformation and AI training across European contexts. Now collaborating with the EDEH of the European Commission in AI literacy and governance.

The expertise covers:

- AI literacy and critical thinking in education.
- Teacher training in responsible AI use.
- Design of pedagogical frameworks for AI integration.
- Development of organisational AI governance and usage criteria.
- Alignment with EU AI Act Article 4 (AI literacy obligations).
- Facilitation of workshops for educational leaders and organisational teams.

Ethiceye combines educational practice, strategic consulting and applied research in the field of responsible AI adoption.

▪ **Potential role in the project:**

- Technology provider ☐
- Data provider ☐
- Research ☐
- Training ☒
- Dissemination ☒
- Other: ☒

Please specify:

AI literacy programme design, governance frameworks for responsible AI use, training for educators and organisational leaders, and development of critical thinking methodologies for AI adoption.

Expertise / competence needed in case of searching for Project Partners:

We are open to collaboration with partners providing:

- Technical AI development expertise.
- Educational institutions and universities.
- Public sector organisations in education or digital transformation.
- Research institutions in AI ethics, governance or education.
- Organisations involved in digital skills and AI literacy initiatives.

▪ **Other areas of interest for collaboration:**

- AI literacy frameworks in education systems.
- Responsible AI adoption in public institutions.
- Teacher training and professional development programmes.
- Development of European guidelines for AI governance in education.
- Cross-country collaboration on digital skills strategies.

▪ **Already experience in EU funded projects as a:**

- Coordinator: ☒ YES ☐ NO
- Partner: ☐ YES ☐ NO

▪ **Project experience and track record:**

Experience in European education, digital transformation and AI literacy initiatives, including teacher training programmes, digital competence development and cross-border collaboration in European education networks.

Work includes participation in Erasmus+ projects, eTwinning initiatives and collaboration with the European Digital Education Hub (EDEH) of the European Commission.

Experience as a digital education advisor applying European competence frameworks such as DigCompEdu and DigCompOrg to support schools and educational organisations in their digital transformation strategies and pedagogical integration of technology.

Collaboration with institutions such as Europass Teacher Academy, delivering international training programmes for educators across Europe focused on digital skills, AI literacy and the responsible integration of emerging technologies in education.
