

PARTNER SEARCH FORM

for

Digital Europe Programme (DEP)

- ☒ I offer my expertise to participate as a Partner in a DEP Project
- ☐ I am planning to coordinate a Project and I am looking for Project Partners

TOPICS OF INTEREST

- TOPIC IDs: DIGITAL-2026-AI-DATA-10-COMPLIANCE
- TOPIC Deadline: 01 October 2026 17:00:00 Brussels time
- Deadline for the expressions of interest: 15 August 2026

PARTNER INFORMATION

▪ **Description of the Legal Entity:**

- Higher Education ☐
- Research Institution ☐
- Public Administration ☐
- Industry / SME ☒
- NGO ☐
- Other: ☐

Please specify:

- **Description and expertise of the team:** TREE Technology S.A. is a Spanish SME specialising in the delivery of advanced software solutions based on artificial intelligence (AI), big data and cybersecurity. Our technical expertise aligns with the objectives of this call, as we have the capability to design and deploy scalable, cloud-native data architectures, database ingestion pipelines and semantic interoperability frameworks to harmonise structured and unstructured datasets. To facilitate trustworthy, automated regulatory exchanges, we have extensive expertise in privacy-enhancing technologies and federated learning, including differential privacy to prevent data reconstruction attacks, as well as homomorphic encryption and secure multi-party computation implementations. We have also successfully developed secure, decentralised self-sovereign identity frameworks that are compatible with European reference specifications and incorporate advanced biometric facial verification, deepfake detection and AI-driven automated document validation for secure digital wallets. Finally, we have extensive experience in automated regulatory compliance in the public sector.

▪ **Potential role in the project:**

- Technology provider ☒
- Data provider ☐
- Research ☒
- Training ☐
- Dissemination ☐
- Other: ☐

Please specify:

Expertise / competence needed in case of searching for Project Partners:

▪ **Other areas of interest for collaboration:**

▪ **Already experience in EU funded projects as a:**

- Coordinator: ☒ YES ☐ NO
- Partner: ☒ YES ☐ NO

▪ **Project experience and track record:**

Over the last few years, TREE has participated in more than 30 collaborative projects under the FP7, H2020, Horizon Europe and Spanish programmes. These projects have involved over 200 international partners. Our most relevant project experience in relation to the DIGITAL-2026-AI-DATA-10-COMPLIANCE topic includes the following:

- SECAP – System for the Evaluation and Regulatory Compliance in Public Administration
- TrustedED – Enabling Trustworthy European Data Spaces through Self-Sovereign Identity and Privacy Preserving Technologies
- IBERIA – Creation and Management of Digital Identities Based on Distributed Ledgers and Artificial Intelligence
- APRENDE – Assuring Data Protection and Privacy in Federated Environments
- CONFIA – Tool for the Detection of Biased, Erroneous or Fraudulent Data using Artificial Intelligence
- PRESERVE – Ethical and Privacy-Preserving Big Data Platform for Supporting Criminal Investigations
- STRATIF-AI – Continuous Stratification for Improved Prevention, Treatment, and Rehabilitation of Stroke Patients using Digital Twins and AI
- OptimAlse – Optimising Performance and Trust for Integrity-Driven Modular genAI Software Engineering
- MUSKETEER – Machine Learning to Augment Shared Knowledge in Federated Privacy-Preserving Scenarios
- ENSEMBLE – ENhanced AI-baSEd cybercriMe-oriented collaBORative investigation technologies and capabiLitiEs
- HUMANIA – Trust and Security in the Lifecycle of High-Risk AI Systems with Human Interaction
