PARTNER INFORMATION

- **Description of the Legal Entity:**

- Higher Education ☐
- Research Institution ☐
- Public Administration ☐
- Industry / SME ☒
- NGO ☐
- Other: ☐

Please specify: Private limited company (UAB); software-development and digital-technology SME.

- **Description and expertise of the team:**

DevSlate Group is a Lithuanian software-development SME delivering end-to-end digital solutions from requirements analysis and architecture through development, integration, testing, deployment and support.

The team develops web and mobile applications, data-driven platforms, APIs and business-intelligence solutions, with practical experience in FinTech, finance, e-commerce and other regulated or data-intensive environments.

Core technical strengths include blockchain and distributed-ledger solutions, secure systems integration, privacy-aware data processing, audit-ready workflows, and the integration of AI-enabled services into production platforms. Through its Guardera cybersecurity and regulatory-compliance brand, the group also supports compliance-by-design and digital resilience.

For the selected Digital Europe topics, DevSlate can contribute reusable platform components, interoperable APIs, secure data exchange, pilot integration, technical mentoring and validation. The company also coordinates the BCCS Cluster and works with technology, research and business partners across FinTech, Web3 and cybersecurity ecosystems.

▪ **Potential role in the project:**

- Technology provider ☒
- Data provider ☐
- Research ☒
- Training ☒
- Dissemination ☒
- Other: ☒

Please specify: Technical work-package/task leader for solution architecture, platform and API development, systems integration, cybersecurity-by-design, pilot deployment and validation.

▪ **Other areas of interest for collaboration:**

Secure AI and data platforms; AI Act, NIS2, DORA and MiCA implementation; cybersecurity and digital resilience; FinTech, Web3 and blockchain; European data spaces and digital health; advanced digital skills; SME digitalisation; applied R&D, piloting and international technology commercialisation.

▪ **Already experience in EU funded projects as a:**

- Coordinator: ☒ YES ☐ NO
- Partner: ☒ YES ☐ NO

▪ **Project experience and track record:**

EDIH VILNIUS – Consolidation Phase (Digital Europe Programme; call DIGITAL-2025-EDIH-EU-EEA-08-CONSOLIDATION-STEP) – ongoing. Through BCCS Cluster, which it coordinates, DevSlate Group contributes FinTech, Web3, blockchain and cybersecurity expertise supporting the digital transformation of SMEs and public-sector organisations.

Mature BCCS Cluster Development Project (No. 02-046-K-0001) - ongoing. DevSlate is the BCCS Cluster coordinator for this EU-co-financed project (November 2024-November 2026; total budget EUR 1,209,302; EU funding EUR 604,651). The project develops a high-tech innovation ecosystem, joint strategies and products, and participation in international R&D&I programmes.

Small UAS (EDF 2024, Project No. 101224328) – ongoing. DevSlate Group is the Lithuanian partner in this 48-month European defence project developing an AI-driven swarm of ten

small uncrewed aerial systems. The project strengthens DevSlate's experience in multinational defence R&D, autonomous systems and secure technology integration.

Implementation of Mission-Based Science and Innovation Programmes (No. 02-002-P-0001) - completed. DevSlate participates in the Kaunas University of Technology consortium under the 'Safe and Inclusive e-Society' mission, contributing to collaboration between research organisations and industry on cybersecurity, privacy and technology commercialisation.

International Networking and R&D Partnership Networks (No. 02-017-K-0006) - completed. EU-co-financed project implemented from September 2023 to October 2025 to build international SME networks and identify partners for EU R&D programmes in FinTech, blockchain, Web3 and cyber/information security.

Development of BCCS Expo Cluster Export Markets (No. 02-026-K-0002) - completed. EU-co-financed project implemented with six company partners from February 2024 to February 2026 (budget EUR 413,301; EU funding EUR 236,764), strengthening cluster internationalisation, export markets and joint value chains.

InoConnect (No. 01.2.1-LVPA-T-844-01-0125) - completed. ERDF-supported partner-search and international networking project (May 2021-February 2023) focused on R&D partnerships for innovative software, FinTech, e-commerce, blockchain and cybersecurity solutions.

Membership in International Networks Generating Horizon Europe Initiatives (No. 10-039-P-0001-69) - completed. Project implemented from February 2025 to April 2026 to strengthen participation in international networks that generate Horizon Europe initiatives and topics.

NFT DevSlate Group E-commerce (No. 13.1.1-LVPA-K-860-01-1329) - completed. EU Structural Funds project (February 2022-February 2023) that developed an e-commerce solution for standardised services and products using NFT and blockchain technology.
